

Research Validation Statement

Confirmation of prototype review — for doctoral research records and EIC Pre-Accelerator evidence

This is a **voluntary statement** confirming that a representative of the reviewing organisation examined the HealthLedgerAI billing-compliance prototype during a research meeting. It is collected solely for the researcher's doctoral record and as supporting evidence for the European Innovation Council (EIC) Pre-Accelerator application. It carries **no commercial obligation** of any kind, and all information exchanged is protected under the Non-Disclosure Agreement signed prior to the meeting.

— C · STATEMENT OF REVIEW

- ☐ I confirm that I **reviewed the HealthLedgerAI prototype** as presented to me during a research meeting on the date stated above.
- ☐ I understand the prototype is a **pre-launch research tool** developed as part of doctoral research, and that this review does not constitute a purchase, endorsement, or commercial commitment.
- ☐ I am **authorised** to provide this statement in connection with my role at the organisation named above.
- ☐ I consent to this statement being used **as evidence** in the researcher's doctoral record and EIC Pre-Accelerator application, within the limits of the signed NDA.

— D · OPTIONAL FEEDBACK FOR THE RESEARCH

Your professional opinion directly shapes the next version of the prototype. All fields below are optional.

1 Do the billing errors this prototype detects reflect real problems you encounter in your billing process?

☐ Yes ☐ Partly ☐ No

2 Are there error types not covered here that are common in fertility-clinic billing in Greece?

3 Would a tool like this — even at prototype stage — be useful to your billing or administration team?

☐ Yes ☐ Maybe ☐ No

4 Any further comments or suggestions?
