 Scholarships for Doctoral Studies (Fall Semester 2026) EN.pdf 195 KB

Dear Maria,

Thank you for your email.

My colleague Andreas forwarded your email to me, as I am responsible for admissions and can assist you with your questions regarding the PhD application and scholarships.

Regarding your questions about doctoral scholarships, please find attached the **Topics for Scholarships for Doctoral Studies (Fall Semester 2026)** for your reference.

Unfortunately, there is currently **no scholarship available for the PhD in Business Administration**. However, as an EUC alumna progressing from a Master's degree at European University Cyprus to doctoral studies, you are eligible for a **10% reduction on the total tuition fees** for the PhD programme.

I hope this information is helpful as you prepare your application for the February 2027 intake.

Please do not hesitate to contact me if you require any further information or assistance with the admissions process.

Kind regards,

Michalis Georgiou BBA, MBA

CAUTION: This email originated from outside the organization. Do not click on any links or open attachments unless you recognize the sender and know the content is safe.

Dear Mr. Kounoupis,

my name is Maria Polychroniadou and I am currently a student at the European University Cyprus, enrolled in the MSc programme “Data Analytics in Accounting and Finance” (student number 2025EUC2577, expected completion 2027).

I am preparing my application for the **PhD in Business Administration** at the Nicosia campus for the **February 2027 intake** (application deadline January 2027). Prof. Alexios Kythreotis, Associate Professor of Accounting and Finance, has agreed to supervise my dissertation, which examines AI-driven transformation of accounting processes in hospitals, with empirical work in Cyprus and Greece.

On the program page I read that a limited number of **full tuition PhD scholarships** is available each semester to qualified applicants. I would like to apply for such a scholarship and would be grateful for your guidance on the following:

1. What are the **eligibility and selection criteria** for the full tuition PhD scholarships?
2. Is a **separate application** required, or are candidates considered automatically as part of the admission process?
3. Which **documents** should I submit, and by when — before or together with the admission application in January 2027?
4. Are **continuing EUC students** progressing from a Master’s to a doctoral program considered in the assessment?

Regarding my academic record: I have completed the first two semesters of the Master’s program with an A grade in every course (marks between 93 and 100 out of 100). I attach the

corresponding assessment reports for your reference and am happy to provide my Bachelor's degree documents or any further material on request.

For completeness, I should mention that I have also applied for doctoral scholarships from two German foundations (Konrad-Adenauer-Stiftung; Studienstiftung des deutschen Volkes). Those decisions are still pending, and I would of course inform the University of any outcome.

Thank you very much for your time and assistance.

Kind regards,

Maria Polychroniadou

MSc student, Data Analytics in Accounting and Finance (2025EUC2577)
